Installation notes

Suggestions for replacing gaskets

- **Save old gaskets**

Recommend saving all seals and gaskets till your restoration is complete. This way you can verify the gasket / seals received match your originals. IF there are any difference between your originals and our kit I would be interested in hearing about it. I'm always learning.
Contact me at jamesfillmore@detroitmuscletechnologies.com

- **Pictures**

Highly recommended to take digital pictures when removing old parts/gaskets.

- **Adhesives**

All gaskets can be attached using one of two adhesives.

For the gray charcoal foams or for applications where you don't want to "see" the adhesive, use 3M 77 Spray Adhesive. Available at most chain craft stores.

For all gray foam rubber (like taillight lense to housing gaskets) or any black foam rubber (like air grabber door to hood seals) use 3M Black Weatherstrip Adhesive. Available at most chain auto parts stores. Chrysler used very thin beads of this weatherstrip adhesive to hold gaskets in place during assembly. It's not necessary to provide a seal and will make cleaning or replacement difficult in the future. On any of the lamp lense gaskets I personally wouldn't use adhesive.

MEGA Gasket Sets

We have MEGA gasket sets for each car model in either Non A/C or A/C versions. These kits combine the pieces commonly purchased when doing a repaint or restoration as well as offering an approx 10% combined discount.

Prices for these kits are at the bottom of the respective Paint Gasket Set pages.

Mega Restoration Kits - include the following;

- Paint gasket set
- Non firewall gasket set
- BIG Heater box resto kit
- Engine well splash shields
- Firewall insulation set with OEM style pins
- Kickpanel insulation set
- Under dash shoddy pad
- 5pc Weatherstrip set
- Mega body plug and bumper set

Not included but optional;

- Hood to radiator seals (with SS clip set)
- Hood to cowl seals with pre-installed clips
